

Program Management

Providing Clients With Program Management Solutions for Decades

Kaufman Dolowich has been assisting clients with comprehensive program management solutions for decades. We manage claims from start to finish for a wide variety of insurance programs, including errors and omissions, financial institutions, directors and officers, employment practices liability, cyber, general liability, and a host of other specialty insurance programs.

Program management is a core practice area within the firm. We draw from our diverse attorney base to provide a full range of services, including claims investigation, risk management, and data tracking. We also assist in managing litigation expenditures and rendering coverage opinions.

A Customized Approach to Sound Business Solutions

Our attorneys are committed to seeking sound business solutions to cases through early assessment and proactive efforts, including direct negotiation with claimants and alternative dispute resolution. We also maintain direct lines of communication with assigned defense counsel when matters are in active litigation.

Our program management services drive results from the initial claim notification to a final resolution. We customize our approach based on our clients' particular needs. Through careful analysis and data tracking, we offer comprehensive claim evaluation, policy and coverage analysis, underwriting support, and management of the entire claims process efficiently and effectively.

Working Together to Find Cost-Effective Solutions While Limiting Exposure

We understand the inherent need our clients have in managing often complex insurance programs with multiple product lines. Together, we work as trusted partners to help mitigate exposure and find the best and most cost-effective solutions through sound program management practices.

Additionally, we offer proactive risk management guidance to help clients avoid potential issues before they occur. We host educational seminars and webinars to keep clients informed on the latest industry developments, trends, and best practices related to risk mitigation. Kaufman Dolowich also offers a risk management hotline that program insureds can utilize to get answers to pressing questions.

Given our robust program management services and offerings, we are well-equipped to provide value-added solutions to help clients achieve measurable results.
