

Hospitality Industry and Casino Operator's Guide to Managing U.S. Liability Issues from the Caribbean (December 7, 2018)

Presented by Bruce Liebman, Esq. and Michel Morgan, Esq.

Resorts in the Caribbean Travel and Tourism industry should become increasingly aware and concerned about exposure to lawsuits outside of their jurisdictions as the significant growth in this industry and region continues to be statistically undeniable.

Topics to be covered include the following:

- Is your hotel or casino business prepared to handle liability arising out of catering to U.S. residents?
- Should your hotel or casino business be preemptive or responsive to U.S. liability issues?

This presentation is follow up on Mr. Lieberman and Ms. Morgan's article in *Hotel Executive* from August, 2018.
