SESSION INFORMATION

Session date: Thursday, November 10th – 9:45 to 10:45 a.m.

Session title: Are Management Liability Exposures for Law Firms Changing?

Description: Geographical expansion, organic growth, M&As, new practice areas, and competitive pressures within the legal industry have all led law firms to adopt more corporate-like governance. The transition from a traditional, consensus-driven decision making process to a more corporate approach has resulted in a different governance approach for these firms. This panel will discuss the exposures that exist for firm management, including executive committees and General Counsels, and how they impact the management liability programs.
