

*Partner Avery Dial, Esq. quoted in Gov Tech.com article, Cyber Insurance Roundup: What's Happening Now?, 11-12-2023*

*From the roller-coaster ride in rates to new generative AI uses to dramatic changes in underwriting rules, cyber insurance is evolving fast. Here are some of the latest trends...*

*"Even the most well-prepared organizations can fall prey to cyber attackers, but some organizations are vulnerable due to lack of proper controls. 'Was the claim brought about by some entrenched structural, systemic problem with the company's cybersecurity that may make them undesirable or uninsurable?' asks **Avery Dial**, partner at Kaufman Dolowich and chair of the law firm's data privacy practice group.*
